JAN 29

MEMORANDUM FOR: Deputy Director of Central Intelligence

VIA: Executive Director  
Chairman, E Career Service

FROM: Robert W. Magee  
Director of Personnel

SUBJECT: Senior Intelligence Service Positions -  
National Intelligence Council

1. Action Requested: Your approval of revised Senior Intelligence Service (SIS) positions in the National Intelligence Council (NIC) as specified in paragraph 3.

2. Background: The National Intelligence Officers (NIOs) are the principal staff officers for the Director of Central Intelligence (DCI) and serve as senior-level advisors for matters related to the NIO's area of expertise. They must be thoroughly knowledgeable of a wide variety of Intelligence Community programs while maintaining and developing special knowledge and understanding in their specific area of emphasis. To maintain their expertise and to be able to provide the best counsel possible to the DCI the NIO maintains contact at the senior and most knowledgeable levels of government, academia, and the private sector. Traditionally, the recognized expertise, the knowledge required, and representational nature of the NIO positions have warranted allocation at the SIS-04 level in order to accommodate highly skilled and experienced officers. In November 1984, six existing SIS level positions were relocated within the NIC to reflect organizational changes directed by either the DCI or the Chairman of NIC. Three of these positions were not at the SIS-04 level, two having been previously established at the SIS-1/2 level and one at the SIS-05 level. The Chairman of NIC has now requested that these three positions be established at the SIS-04 level in line with other NIO positions.

3. Recommendation: It is recommended that you approve the following actions:

- a. Upgrade the NIO position for Science and Technology from SIS-1/2 to SIS-04.
